NPCI Bharat BillPay Ltd.**

Subject: Implementation of New Enhancements in Existing BBPS APIs

Dear Sir/Madam,

In our endeavor to expand the scope of Bharat Bill Payment System (hereinafter referred to as "BBPS") and to cater to the requirements of the upcoming categories, NPCI Bharat BillPay Limited (hereinafter referred to as "NBBL") continuously enhances the functionalities of the existing fetch and payment APIs.

With reference to the same, NBBL had released the New Enhancements in Existing BBPS APIs vide circular NPCI/2023-24/BBPS/003 dated 18th May 2023.

Through this enhancement, additional features like bulk fetch and payment, amount configurations for individual bill level, selection element type, etc. have been incorporated in the BBPS APIs which will help our partners to enhance the bill payment experience for customers in the existing categories such as Loan Repayment, etc. and new categories such as E-Challan, Bulk Electricity payment, Corporate Credit Cards, etc.

All COUs and AIs are advised to integrate with the API 1.1 enhancement to enable the billers of the aforementioned categories.

The requisite developments need to be implemented by the COUs/AIs within the stipulated time i.e. 30th June 2024.

Yours Sincerely,

Sd/-
